2016 Gulf and Caribbean Fisheries Professional Development Program

"Building Capacity through Scientific Exchange"

2016 Training Program

We are pleased to offer Caribbean-based fisheries and ocean resource professionals a training opportunity at the University of Florida, USA. The successful candidate will be hosted by Florida Sea Grant, a statewide program that supports fisheries and ocean research and extension. The four-month training will focus on one of the following topics identified by applicants: (1) fisheries management and policy, (2) fisheries stock assessment, (3) data analysis methods or (4) Geographic Information Systems.

This opportunity is not open to students

The Award

The award will include lodging and a stipend of \$2,000 US per month for four months (\$8,000 US). Round trip airfare for the successful candidate also is included. The candidate will be responsible for acquiring a visa, mandatory health insurance coverage and living expenses.

Important Dates

Application opens: April 11, 2016

Application deadline: May 20, 2016

Award notification: June 10, 2016

Program starts: August 15, 2016

Program ends: December 18, 2016

The successful candidate will be matched with Florida Sea Grant-affiliated faculty whose expertise aligns with their professional interests. The selected candidate will apply knowledge gained to advance an ongoing or proposed project of their choosing that is related to a fishery management need identified by their resource management ministry or government agency. At the conclusion of the four-month training the selected candidate will report progress made toward meeting the identified fisheries management need at a University of Florida fisheries and aquatic sciences seminar.

Award Requirements

Applicants must be employed by a resource management ministry or government agency located in the Gulf of Mexico or Caribbean region. This includes all island nations up to Bermuda, central and south American countries from Mexico south to Columbia, CRFM member states, and US Territories in the Caribbean. At a minimum, applicants must possess a bachelor's degree or a professional degree (e.g., Law) from an accredited college or university. Candidates must be fluent in English.

This opportunity is not open to persons residing in the continental United States.

Program Sponsors

Florida Sea Grant; The Caribbean Regional Fisheries Mechanism; The Billfish Foundation; the Gulf and Caribbean Fisheries Institute.
